ABOUT ME

- *I started my career nine years ago, in mid-2011, when I was a student.*
- *Have experience in both frontend and backend, but I prefer the frontend position.*
- *Experienced working in teams and collaborative environments, but also self-sufficient. I like to set myself yearly goals that I will achieve. I have good listening skills.*
- *I want to improve my knowledge about everything, not only tech. I am always looking for new challenges.*
- *My target is to become a DevOps engineer in the next 1 ~ 3 years.*
