ABOUT ME

- *Started my career 9 years ago, from mid-2011.*
- *Have experience in both frontend and backend but I prefer the backend position.*
- *Experienced working in teams and collaborative environments, but also self-sufficient. I like to set myself yearly goals that I will achieve, I have good listening skills.*
- *I want to improve my knowledge about everything, not only tech, I am always looking for new challenges.*
- *My target is to become a DevOps engineer in the next 1 ~ 3 years.*
